

30 Years in Systems Design

Northwest Tech-Con Systems Ltd.

Liquid Process & Control Solutions for Tomorrow's Technologies

DESIGN & MANUFACTURE

STANDARD PANEL PRODUCTS

- > Sump & Sewage Controller - Simplex, Duplex, Triplex
- > Diagnosis Sump & Sewage Controller
- > Intrinsically Safe Barrier (ISB) - for hazardous areas
- > Pressure & Booster Control
- > Well & Water Application
- > Remote Annunciator
- > Machine Operation Control
- > Elevator Sump Control c/w Oil Level Detector

LIQUID CONTROL PRODUCTS

- > Level Probe c/w External Float Test System
- > Fuel Transfer Control c/w Float Diagnosis
- > Complete Turn Key Fuel Skid Build with Self Polish System
- > Fuel Polish System
- > Interstitial Level Leak Probe
- > Spill Detector Floor Mount

Custom Control for Heavy Duty Machine

Geo-Thermal Plant

Fuel Transfer for Airport

Fuel Transfer System Production

KIOSK

- > Sewage Lift Station
- > Fuel Skid

Pump Lift Station

COMMUNICATION

- > Auto Dialler
- > Complete SCADA System via Ethernet, Internet, Modbus, TCP/IP, BACnet, etc.
- > Remote Control

NWTC Production Shop

CUSTOM DESIGN SYSTEM

- > Complete Design of Process Controls (turnkey) for Water & Wastewater Treatment (WTP, WWTP)
- > Fuel Transfer for Tank Farms
- > Complete Control Design for Pump Station, Water System, Booster Station, Lift Station, Kiosk & Housing

Mobile Water Treatment Unit

Booster & Fire Pump Station
